Fáilte ar ais

Welcome back: what happened when you tried AI?

Bhain tú triail as AI trí huaire idir Seisiún 1 agus inniu. Na teipeanna ar dtús.

You tried AI three times between Session 1 and today. Failures first.

Príobháideacht, rúndacht agus sonraí pearsanta

Privacy, confidentiality and personal data — three kinds of information

Sonraí pearsanta

Personal data

Aon fhaisnéis a bhaineann le duine beo atá sainaitheanta nó is féidir a shainaithint: ainm, seoladh, uimhir ghutháin, grianghraf.

Any information about an identified or identifiable living person: a name, address, phone number, photograph.

Eolas rúnda

Confidential information

Eolas nach bhfuil poiblí, agus a bhfuitear ag súil go gcoinneofar príobháideach í: conarthaí, miontuairiscí cruinnithe, praghsanna neamhfhoilsithe.

Information that is not public and that people expect you to keep private: contracts, meeting minutes, unpublished prices.

Eolas phoiblí

Public information

Eolas a d'fhoilsigh a húinéir cheana don saol mór: láithreán gréasáin, nuachtlitir fhoilsithe.

Information its owner has already published for anyone to read: a website, a published newsletter.

Ní hionann rúnda agus pearsanta, agus ní hionann ceachtar acu agus poiblí.

Confidential is not the same as personal, and neither is the same as public.

Ask one AI to design a prompt for another AI

Sampla prompt • Example prompt

Teastaíonn uaim go ndéanadh córas AI eile athbhreithniú ar thogra maoinithe atá scríofa i nGaeilge. Dear prompt mionsonraithe a chuirfidh an dara AI ag gníomhú mar athbhreithneoir criticiúil togra. Ba cheart dó struchtúr, soiléireacht, comhsheasmhacht, fianaise, cáilíocht teanga agus éilimh gan tacaíocht a sheiceáil. Ní mór dó gan faisnéis a chumadh agus gan an togra a athscríobh mura n-iarrtar go sainráite air é.

I need another AI system to review a funding proposal written in Irish. Design a detailed prompt that will make the second AI act as a critical proposal reviewer. It should check structure, clarity, consistency, evidence, language quality and unsupported claims. It must not invent information or rewrite the proposal unless explicitly asked.

3

Does it clearly say not to invent information?

4

An iarrtar air idirdhealú a dhéanamh idir earráid chinnte, feabhsú féideartha agus rud a chaithfidh duine a fhíorú?

Does it ask it to separate a definite error, a possible improvement and something a human must verify?

5

An bhfuil sé ráite gan an togra a athscríobh go fóill?

Does it say not to rewrite the proposal yet?

6

An iarrtar air cáilíocht na Gaeilge a sheiceáil, agus na téarmaí nach bhfuil sé cinnte fúthu a liostú?

Ceadú • Approval

Ceadaithe ag: _____ Dáta: _____

Approved by: _____ Date: _____

Gan cheadú • Not approved

Gan cheadú go fóill. Cad atá ar iarraidh?

Not approved yet. What is missing?

Sruth oibre sábháilte AI

Task → Source → Prompt → Generate → Verify → Improve → Approve

1

Tasc • Task

Cad é an tasc, i bhfocail shimplí, gan AI a lua?

What is the task, in plain words, without mentioning AI?

2

Foinse • Source

Cad iad na fíricí agus na foinsí atá ar eolas agam cheana?

Which facts and sources do I already have?

3

Prompt • Prompt

Ról, comhthéacs, tasc, srianta, aschur — agus: ná cum faisnéis.

Role, context, task, constraints, output — and: do not invent information.

4

Gin • Generate

Faigh dréacht. Ná stop ag an gcéad iarracht.

Get a draft. Do not stop at the first attempt.

5

Fíoraigh • Verify

Seiceáil fíricí, uimhreacha, ainmneacha agus Gaeilge.

Check facts, numbers, names and Irish.

6

Feabhsaigh • Improve

Inis dó cad a bhí mícheart agus cén fáth.

Tell it what was wrong and why.

7

Ceadú • Approve

Duine ainmnithe a cheadaíonn. Ní hé AI.

A named person approves. Not AI.

Coimead an prompt a d'oibrigh.

Keep the prompt that worked.

Do shruth oibre féin

Your own workflow — five minutes, alone, no discussion

Tasc fíor amháin ó do sheachtain

An prompt

The prompt

Cad a sheiceálfaidh mé, agus cé a sheiceálfaidh é?

What I will check, and who checks it

An duine a cheadaíonn (ainm)

The person who approves (name)

Roghnaigh tasc fíor amháin ó do sheachtain féin. Ainmnigh an duine a cheadaíonn.

Choose one real task from your own week. Name the person who approves.

What we said today

Is féidir le AI dréacht a scríobh.

AI can draft.

Is féidir le AI athbhreithniú a dhéanamh.

AI can review.

Is féidir le AI moltaí a thabhairt.

AI can suggest.

Ní hé AI a cheadaíonn.

AI does not approve.

Ná bíodh muinín agat as rud nár sheiceáil tú.

Don't trust what you haven't checked.

Ó Sheisiún 1: Ní hionann tuar agus tuiscint. • Ní hionann líofa agus fforasach.

Ar aghaidh go Seisiún 3

Bridge to Session 3 and the task between sessions

Seisiún 3: cad a tharlaíonn nuair a bhuaileann AI leis an nGaeilge?

Session 3: what happens when AI meets Irish?

Ó thasc go sruth oibre • From task to workflow

Roghnaigh tasc cumarsáide a dhéanann tú go rialta — nuachtlitir, fógra imeachta, post sóisialta, cuireadh ríomhphoist, nó aon rud eile — agus déan sruth oibre de. Tabhair leat an sruth oibre, agus an pointe ar theip air, go Seisiún 3.

Choose one repetitive communication task — a newsletter, an event announcement, a social post, an email invitation, or anything else — and turn it into a workflow. Bring the workflow, and the point where it broke, to Session 3.

Obair agus poist • Work and jobs

Seisiún 4

An Ghaeilge • The Irish language

Seisiún 3

AI don Ghaeilge — ní AI in ionad na Gaeilge.

AI for Irish — not AI instead of Irish.

1. Rud amháin a dhéanfaidh AI dom, agus a choimeadfaidh mé. • One thing AI will do for me, that I will keep.
2. Seiceáil amháin nach gcaillfidh mé choíche. • One check I will never skip.
3. Rud amháin nach ligfidh mé do AI a dhéanamh: é a cheadú. • One thing I will not let AI do: approve it.
