An Ghaeilge i ré AI

Irish in the age of AI

Seisiún hibrideach · A hybrid session

Beidh an seisiún seo hibrideach: beidh cuid de na rannpháirtithe i láthair go pearsanta i gCampas Íosagáin, agus beidh cuid eile ag glacadh páirte ar líne trí Microsoft Teams.

This session is hybrid: some participants will be in Campas Íosagáin in person, and others will take part online via Microsoft Teams.

Déanfaidh gach duine na gníomhaíochtaí céanna, cibé an bhfuil siad i láthair nó ar líne.

Everyone does the same activities, whether they are in the room or online.

2 · Roimh an seisiún

Before the session

- ☐ Ríomhaire nó ríomhaire glúine le rochtain idirlín. A computer or laptop with internet access.
- ☐ Rochtain ar Microsoft Teams, más ar líne a bheidh tú ag glacadh páirte. Access to Microsoft Teams, if you will be taking part online.
- ☐ Pacáiste an Rannpháirtí agus an Pacáiste Foinsí (PDF) — íoslódáilte nó priontáilte. The Participant Package and the Supporting Source Pack (PDF) — downloaded or printed.
- ☐ Más féidir: ceann amháin nó níos mó de ChatGPT, Claude nó Microsoft Copilot. Níl sé de dhíth ort cuntas nua a oscailt, ná plean íoctha. If possible: one or more of ChatGPT, Claude or Microsoft Copilot. You do not need to open a new account, or a paid plan.
- ☐ Más féidir: cuntas Google, chun Gemini Notebook (NotebookLM roimhe seo) a úsáid ag notebook.google. Níl sé riachtanach. If possible: a Google account, to use Gemini Notebook (formerly NotebookLM) at notebook.google. It is not required.
- ☐ Do shruth oibre ó Sheisiún 2, agus an áit ar theip air. Your workflow from Session 2, and the point where it broke.

Más cuntas oibre atá agat (m.sh. Copilot Chat), lean beartas d’eagraíochta. · If you use a work account (e.g. Copilot Chat), follow your organisation’s policy.

Ná cuir faisnéis fíor, phearsanta ná rúnda in aon uirlis AI phoiblí — sampla ficseanúil atá i ngach cleachtadh. • Do not put real, personal or confidential information into any public AI tool — every exercise uses fictional material.

3 • Na cáipéisí

The documents you need

Cáipéis • Document	Cad chuige • What it is for
Leabhar Oibre an Rannpháirtí Participant Workbook	Do phríomhdhoiciméad don seisiún ar fad. Your main document for the whole session.
An Sampla Oiliúna Ficseanúil The Fictional Scenario Pack	Comharchumann Chois Cuain: an cárta fíricí, na téacsanna agus na tascanna. Comharchumann Chois Cuain: the fact card, the texts and the tasks.
An Pacáiste Foinsí (PDF) The Supporting Source Pack (PDF)	Ocht ndoiciméad fhicseanúla don ghníomhaíocht ‘Tabhair fillteán do AI’. Eight fictional documents for the ‘Give AI a folder’ activity.

4 • Conas a ghlacann rannpháirtithe ar líne páirt

How online participants take part

- Bí ar an nglao Teams ón tús, agus bíodh an Leabhar Oibre agus an Sampla Oiliúna Ficseanúil oscailte agat. • Be on the Teams call from the start, with the Workbook and the Fictional Scenario Pack open.
- Is é comhrá an chruinnithe an balla roinnte: cuirfidh gach grúpa a thoradh ann, sa seomra agus ar líne. • The meeting chat is the shared wall: every group posts its result there, in the room and online.
- Nuair a deir an t-éascaitheoir dul i ngrúpaí, cuirfear rannpháirtithe ar líne i seomraí foghrúpa Teams, b’fhéidir. • When the facilitator says to go into groups, online participants may be placed in Teams breakout rooms.
- Is féidir prompts a chóipeáil agus a ghreamú (copy/paste) idir do dhoiciméad agus an uirlis AI, mar is gnách. • You can copy and paste prompts between your document and the AI tool, as normal.

Beidh na gníomhaíochtaí céanna ag gach duine, ar líne nó i láthair. • Everyone does the same activities, online or in person.

An Ghaeilge i ré AI

Irish in the age of AI — no maths

Printíseach sa leabharlann • An apprentice in a library

Samhlaigh printíseach a d'fhoghlaim le scríobh ag léamh leabharlainne. Ar gach seilf Ghaeilge, tá na céadta seilf Bhéarla. Scríobhfaidh sé Gaeilge — ach smaoineoidh sé i mBéarla.

Imagine an apprentice who learned to write by reading a library. For every shelf in Irish there are hundreds of shelves in English. They will write Irish — but they will think in English.

Pictiúr é seo, ní tomhas. Tá an éagothroime fíor; níl an uimhir chruinn.

This is a picture, not a measurement. The imbalance is real; the exact number is not.

Má fheiceann córas AI i bhfad níos mó Béarla ná Gaeilge, b'fhéidir go mbeidh sé níos fearr ag an mBéarla — agus go dtabharfaidh sé tuiscintí an Bhéarla leis isteach sa Ghaeilge.

If AI systems see much more English than Irish, they may be better at English — and may carry English assumptions into Irish.

Focal Word	I bhfocail shimplí In plain words
Sonraí teanga Language data	An téacs agus an chaint as a bhfoghlaimíonn córas AI. The text and speech an AI system learns from.
Teanga ar bheagán acmhainní Low-resource language	Teanga nach bhfuil mórán téacs digiteach ar fáil inti. Cur síos ar na sonraí é sin — ní breithiúnas ar an teanga. A language with little digital text available. That describes the data — it is not a judgement of the language.
Éagothroime teanga Language imbalance	Is é an Béarla is mó a fheiceann na córais. English is what the systems see most.
Léiriú Representation	Cé chomh maith is a léiríonn na sonraí an Ghaeilge mar a labhraítear agus mar a scríobhtar í i ndáiríre. How well the data reflects Irish as it is really spoken and written.
Lúb aiseolais Feedback loop	Má fhoilsímid Gaeilge lag gan seiceáil, d'fhéadfadh córais amach anseo foghlaim uaithi. If we publish weak, unchecked Irish, tomorrow's systems may learn from it.

Is féidir le AI ... AI can ...	Ach is féidir leis freisin ... But it can also ...
Is féidir le AI an Ghaeilge a dhéanamh níos úsáidí agus níos feiceálaí. AI can make Irish more useful and more visible.	Gaeilge mhínádúrtha, faoi thionchar an Bhéarla Unnatural, English-influenced Irish
Is féidir leis bacainní ar ábhar Gaeilge a chruthú a laghdú. It can lower the barriers to creating Irish-language content.	Nathanna cainte, tagairtí cultúrtha agus réim tuigte go mícheart Idioms, cultural references and register misunderstood
Is féidir leis cabhrú le dréachtú, aistriú agus anailís. It can help with drafting, translating and analysing.	Eolas mícheart, ach é ráite go cinnte Incorrect information, stated confidently
Is féidir leis tacú le gnólachtaí agus le grúpaí pobail. It can support businesses and community groups.	

Ní hionann níos mó úsáide AI agus Gaeilge níos láidre.

Greater AI use does not automatically mean stronger Irish.

Gaeilge na Mumhan (Munster Irish) · Gaeilge Chonnacht (Connacht Irish) · Gaeilge Uladh (Ulster Irish)

An Caighdeán Oifigiúil: caighdeán don Ghaeilge scríofa — ní canúint labhartha é.

An Caighdeán Oifigiúil: a standard for written Irish — not a spoken dialect.

Cad a athraíonn? foclóir · fuaimniú · gramadach · nathanna cainte · struchtúr abairtí · na focail is fearr le daoine · foirmeacha scríofa · réim agus úsáid áitiúil

What varies? vocabulary · pronunciation · grammar · idioms · sentence structure · preferred expressions · written forms · register and local usage

Sampla fíoraithe: i nGaeilge na Mumhan is minic a thiteann an bhéim ar ghuta fada sa dara siolla — ‘cailín’. Éist leis ar teanglann.ie.

A verified example: in Munster Irish the stress often falls on a long vowel in the second syllable — ‘cailín’. Listen to it on teanglann.ie.

What does the research say?

IRLBench (2025), bunaithe ar cheisteanna scrúdaithe na hArdteistiméireachta: d'fhreagair an tsamhail ab fhearr i gceart 55.8% den am i nGaeilge, i gcomparáid le 76.2% i mBéarla.

IRLBench (2025), built from Leaving Certificate exam questions: the best model tested answered correctly 55.8% of the time in Irish, against 76.2% in English, and models gave a valid Irish answer less than 80% of the time.

Irish-BLiMP (2025), 1,020 péire tástála gramadaí: fuair daoine 90.1%; fuair an tsamhail ab fhearr 73.5%.

Irish-BLiMP (2025), 1,020 grammar test pairs: people scored 90.1%; the strongest model tested scored 73.5%.

Pictiúir thaighde ó 2025 iad seo. Athraíonn na samhlacha go tapa. Is é an bhearna idir an Béarla agus an Ghaeilge an pointe, ní an uimhir chruinn. · These are research snapshots from 2025. Models change quickly; the scores of today's tools may be higher or lower. The pattern — a gap between English and Irish — is the point, not the exact number.

An baol is mó: má bhíonn AI níos éasca i mBéarla, d'fhéadfadh daoine iompú ar an mBéarla.

The biggest risk: if AI is easier in English, people may simply switch to English.

An deis: d'fhéadfadh AI an Ghaeilge a dhéanamh i bhfad níos éasca le húsáid san obair dhigiteach laethúil — má úsáidimid í, má mheasaimid í agus má fheabhsaímid í.

The opportunity: AI could make Irish much easier to use in everyday digital work — if we use it, evaluate it and improve it.

What changed? — Two plans: last year's (English) and this year's (Irish). Ask AI to compare them.

Prompt

Cuir foinse 5 (plean 2025) agus foinse 6 (plean 2026) i gcomparáid. Liostaigh: (1) athruithe tábhachtacha, (2) eolas nua, (3) eolas a baineadh amach, (4) neamhréitigh le foinsí eile, (5) rudaí a dteastaíonn aird dhaonna uathu. Luaigh an fhoinsé do gach pointe.

Compare source 5 (plan 2025) and source 6 (plan 2026). List: (1) important changes, (2) new information, (3) information that was removed, (4) contradictions with other sources, (5) issues needing human attention. Cite the source for each point.

Cineál Kind	Cad a dúirt AI What the AI said	Ceart? Right?
Athrú Change		☐ Tá ☐ Níl
Nua New		☐ Tá ☐ Níl
Bainte amach Removed		☐ Tá ☐ Níl
Neamhréiteach Contradiction		☐ Tá ☐ Níl
Aird dhaonna Needs attention		☐ Tá ☐ Níl

Seiceáil gach pointe in aghaidh an dá phlean. Ar aimsigh AI an t-eolas a baineadh amach? Is iad sin is deacra.

Check each point against the two plans. Did the AI find what was removed? Those are the hardest.

Prompts a bhfuil aird acu ar an gcanúint

Dialect-aware prompts to keep — they complement your own

Lucht féachana áitiúil · Local audience

Scríobh é seo do lucht féachana i nGaeltacht Mhúscraí. Úsáid Gaeilge nádúrtha atá oiriúnach don lucht féachana sin. Ná cum nathanna canúnacha. Cuir in iúl aon rud ar gá do chainteoir áitiúil é a fhíorú.

Write this for an audience in the Múscraí Gaeltacht. Use natural, appropriate Irish for this audience. Do not invent dialect-specific expressions. Flag anything that requires local language verification.

Seiceáil an chanúint · Check the dialect

Déan athbhreithniú ar an téacs Gaeilge seo: an bhfuil sé oiriúnach do lucht féachana i nGaeltacht Mhúscraí? Aimsigh nathanna a d'fhéadfadh a bheith mínádúrtha, róghinearálta nó mí-oiriúnach. Ná hathscríobh go huathoibríoch. Mínigh cad ba cheart do chainteoir áitiúil a sheiceáil.

Review this Irish text for suitability for an audience in the Múscraí Gaeltacht. Identify expressions that may sound unnatural, overly generic or inappropriate for the intended audience. Do not rewrite automatically. Explain what should be checked by a local speaker.

Cuir i gcomparáid · Compare

Cuir an dá leagan Gaeilge seo i gcomparáid. Aimsigh difríochtaí foclóra, réime, frásaíochta agus úsáide réigiúnaí. Ná glac leis go bhfuil leagan amháin níos cirte go huathoibríoch. Aimsigh na pointí a dteastaíonn breithiúnas cainteora dúchais nó áitiúil uathu.

Compare these two Irish versions. Identify differences in vocabulary, register, phrasing and regional usage. Do not assume that one is automatically more correct. Identify points that require a native or local speaker's judgement.

Machnamh

Reflection — write alone

1. Rud amháin a chuir ionadh orm faoi AI agus an Ghaeilge inniu.

One thing that surprised me about AI and Irish today.

2. Rud amháin nach ligfidh mé do AI a dhéanamh le mo chuid Gaeilge.

One thing I will not let AI do with my Irish.

An prionsabal · The principle

Is féidir le AI Gaeilge a scríobh.

AI can write Irish.

Is féidir le AI aistriú.

AI can translate.

Is féidir le AI cabhrú leat.

AI can help you.

Ní hé AI an t-údarás ar an nGaeilge.

AI is not the authority on Irish.

Ba cheart go gcabhródh AI le daoine níos mó Gaeilge a úsáid — ní go mbeadh an Ghaeilge níos lú le feiceáil nó níos lú barántúil.

AI should strengthen people's ability to use Irish — not make Irish less visible or less authentic.

Challenge A — the draft (English gist, so you know what it was meant to say)

The draft is an AI's attempt at a friendly Irish post about the fair. Its nine sentences cover: a welcome; the day and place; the craftspeople; funding; cost; the storytelling; booking a stall; what to wear and drink; entry conditions. Compare each sentence with the fact card. Some of its problems (English-shaped phrasing, register) cannot be shown in English — find them in the Irish.

The source pack

Sources 2, 4 and 5 are in English; sources 1, 6 and 8 are in Irish; sources 3 and 7 mix both. No English version of the Irish sources is given: checking what the AI makes of the Irish is part of the exercise.
