AI sa Chleachtas: Rialáil, Freagracht agus an Obair Laethúil

AI in Practice: Regulation, Responsibility and Everyday Work

Conas a thugaimid AI isteach inár gcuid oibre go muiníneach, go sábháilte agus go freagrach — gan breithiúnas daonna, cuntasacht ná cáilíocht na Gaeilge a chailleadh?

How do we bring AI into our work confidently, safely and responsibly — without losing human judgement, accountability or the quality of our Irish?

Cúig cheist an lae

The five questions this session answers

1. Cad atá foghlamtha againn faoi AI thar na trí sheisiún?

What have we learned about AI across the three sessions?

2. Cad is brí le hAcht AI an AE dár n-eagraíochtaí agus d'úsáid laethúil AI?

What does the EU AI Act mean for our organisations and everyday use of AI?

3. Cén t-eolas is féidir linn a roinnt go sábháilte le huirlisí AI?

What information can we safely share with AI tools?

4. Conas is féidir le hoifigigh phoiblí, eagraíochtaí pobail agus gnólachtaí AI a úsáid go táirgiúil?

How can public officers, community organisations and businesses use AI productively?

5. Conas a thugaimid AI isteach go freagrach gan breithiúnas daonna, cuntasacht ná cáilíocht na Gaeilge a chailleadh?

How do we introduce AI responsibly without losing human judgement, accountability or Irish-language quality?

1. Na príomhcheachtanna praiticiúla ó Sheisiúin 1, 2 agus 3 a mhíniú.

Explain the main practical lessons from Sessions 1, 2 and 3.

2. A aithint go mbraitheann na rioscaí dlí agus oibríochta ar an úsáid shonrach a bhaintear as AI.

Recognise that the legal and operational risks depend on the particular AI use case.

3. Príomhphrionsabail Acht AI an AE agus na hoibleagáidí ábhartha a thuiscint.

Understand the main principles and relevant obligations of the EU AI Act.

4. A aithint cathain is gá aird bhreise ar chosaint sonraí, rúndacht, cóipcheart, trédhearcacht nó maoirseacht dhaonna.

Recognise when data protection, confidentiality, copyright, transparency or human oversight need additional attention.

5. Pointí tosaigh oiriúnacha a aithint chun AI a thabhairt isteach in obair na seirbhíse poiblí, an phobail agus gnólachtaí beaga.

Identify appropriate starting points for AI adoption in public-sector, community and small-business work.

6. Uirlis nó sruth oibre AI oiriúnach a roghnú do thasc ar leith.

Select an appropriate AI tool or workflow for a given task.

7. Eolas a ghin AI a sheiceáil agus éiginnteacht a aithint.

Check AI-generated information and recognise uncertainty.

8. Gaeilge ó AI a mheas ó thaobh cruinnis, nádúrthachta agus oiriúnachta don lucht féachana.

Evaluate Irish-language output for accuracy, naturalness and suitability for the audience.

9. Sruth oibre AI sábháilte praiticiúil a fhorbairt do do chuid oibre féin.

Develop a safe, practical AI workflow for your own work.

10. Trí chéim réadúla ar a laghad a aithint don chéad 30 lá eile.

Identify at least three realistic next steps for the next 30 days.

Athbhreithniú: ó thriail go cleachtas

Recap: from experimentation to everyday practice

Seisiún Session	**Le coimeád** To keep
Seisiún 1 · Tuig an AI 18 Meán Fómhair Session 1 · Understand AI	Ní hionann tuar agus tuiscint. Ní hionann líofa agus fíorasach. Prompt níos fearr: ról, comhthéacs, tasc, srianta, aschur. Prediction is not understanding. · Fluent is not the same as factual. · A better prompt: role, context, task, constraints, output.
Seisiún 2 · Úsáid AI go sábháilte 28 Meán Fómhair Session 2 · Use AI safely	STOP sula gcuireann tú rud isteach: Foinse, Muinín, Úinéireacht, Príobháideacht. Ní hionann rúnda agus pearsanta, agus ní hionann ceachtar acu agus poiblí. Is féidir le AI dréacht a scríobh. Ní hé AI a cheadaíonn. STOP before anything goes in: Source, Trust, Ownership, Privacy. · Confidential is not the same as personal, and neither is the same as public. · AI can draft. AI does not approve.
Seisiún 3 · AI agus an Ghaeilge 9 Deireadh Fómhair Session 3 · AI + Irish	Is é an tasc a shocraíonn an uirlis: cuir uirlisí i gcomparáid. Ní fianaise é freagra AI: Freagra → Foinse → Fianaise → Breithiúnas daonna. IRISH tar éis gach téacs Gaeilge ó AI — agus an bhfuil sé oiriúnach don phobal seo? The task decides the tool: compare tools. · AI output is not evidence: Answer → Source → Evidence → Human judgement. · IRISH after every Irish text from AI — and is it appropriate for this community?

Cén nós a chabhródh?

Which habit would have helped? — write the number(s)

#	**Cás** Situation	**Nós** Habit

1	Thug AI figiúr beacht — “tá 64% de na custaiméirí sásta” — gan foinse ar bith. The AI gave a precise figure — “64% of customers are satisfied” — with no source at all.	
2	Ba mhaith leat ríomhphost ó chustaiméir, lena ainm agus a sheoladh, a ghreamú isteach in uirlis phoiblí. You want to paste a customer’s email, with their name and address, into a public tool.	
3	Tá fógra Gaeilge réidh le foilsiú. Níor léigh duine ar bith é ach an AI. An Irish notice is ready to publish. Nobody has read it except the AI.	
4	Fuair tú freagra lag, ginearálta. Níor thug tú comhthéacs ar bith don uirlis. You got a weak, generic answer. You gave the tool no context at all.	
5	Deir an achoimre go bhfuil páirceáil ar fáil. Ní fios cén doiciméad a deir é sin. The summary says parking is available. Nobody knows which document says so.	
6	D’fhreagair uirlis amháin go maith i nGaeilge; ní dhearna an dara ceann é. One tool answered well in Irish; the second did not.	
7	Iarrann bainisteoir ort AI a úsáid chun cinneadh a dhéanamh faoi iarratas ó dhuine ar sheirbhís. A manager asks you to use AI to decide on a person’s application for a service.	
8	Tá an dréacht go maith. Níl a fhios ag aon duine cé a cheadóidh é. The draft is good. Nobody knows who will approve it.

Acht AI an AE

The EU AI Act — what everyone needs to understand

Treoir oideachasúil — ní comhairle dlí í. · Educational guidance — not legal advice.

Seiceáladh an t-eolas dlí in aghaidh foinsí oifigiúla an 20 Deireadh Fómhair 2026.

Legal information checked against official sources on 20 October 2026.

Réimse beo é seo. Leanann an Coimisiún air ag foilsiú treoirlínte agus cóid chleachtais. Seiceáil na dátaí ar leathanaigh oifigiúla sula ndéantar iad a athrá.

This is a live area. The Commission continues to publish guidelines and codes of practice. Check dates on official pages before repeating them.

Is é an tAcht AI dlí an Aontais Eorpaigh ar intleacht shaorga — Rialachán (AE) 2024/1689. Baineann sé go díreach le gach Ballstát.

The AI Act is the European Union's law on artificial intelligence — Regulation (EU) 2024/1689. It applies directly in every Member State.

Ní hionann an riosca i ngach úsáid. Is beag oibleagáid a bhaineann le húsáid ar riosca íseal; tá oibleagáidí fíora ann nuair atá cearta nó sábháilteacht daoine i gceist.

Not every use carries the same risk. Low-risk uses carry few obligations; real obligations apply where people's rights or safety are at stake.

Ceithre mhíthuiscint

Four misreadings

- Ní gá gach úsáid AI a fhógairt. · Not every use of AI must be declared.
- Níl gach úsáid AI ardriosca. · Not every use of AI is high-risk.
- Ní chuireann an tAcht cosc ar AI. · The Act does not ban AI.
- Ní thagann an tAcht in áit an GDPR. · The Act does not replace the GDPR.

Ceithre chineál ráitis

Four kinds of statement — used throughout this workbook and the checklist

	Cineál Kind	**Brí** Meaning
L	Oibleagáid dhlíthiúil Legal obligation	Éilíonn an dlí é, nuair a bhaineann sé leat. The law requires it, where it applies to you.
C	I gcásanna áirithe amháin Only in certain circumstances	Ní bhaineann sé ach le húsáidí, róil nó cineálacha eagraíochta ar leith. It applies only to particular uses, roles or kinds of organisation.
G	Dea-chleachtas eagraíochta Recommended organisational practice	Ní éilíonn an dlí é i gcónaí, ach is cleachtas ciallmhar é. Not always required by law, but sensible practice.
P	Réamhchúram pearsanta Personal precaution	Nós maith don duine aonair a úsáideann AI. A good habit for the individual using AI.

Ceithre leibhéal riosca

Risk-based rules

Leibhéal Level	**Cad é** What	**Duitse** For you	**Ó** From
Cleachtais thoirmiscthe Prohibited practices	Cosc iomlán: mar shampla, ionramháil dhíobhálach, scóráil shóisialta, aithint mothúchán san ionad oibre nó san oideachas, agus bunachair aghaidheanna a thógáil trí íomhánna a scríobadh. Banned outright: for example harmful manipulation, social	Ná húsáid AI chun mothúcháin fostaithe a mheas óna n-aghaidh nó óna nguth. Do not use AI to infer employees' emotions from their face or voice.	Ó 2 Feabhra 2025 Since 2 February 2025

	scoring, emotion recognition in the workplace or in education, and building face databases by scraping images.		
Ardriosca High risk	Ceadaithe, le hoibleagáidí substaintiúla: mar shampla earcú agus bainistíocht foirne, oideachas, incháilitheacht do sheirbhísí poiblí riachtanacha, agus bithmhéadracht. Permitted, with substantial obligations: for example recruitment and staff management, education, eligibility for essential public services, and biometrics.	Má úsáidtear AI chun daoine a scagadh, a rangú nó a mheas, faigh comhairle roimh ré — ní ina dhiaidh. If AI is used to screen, rank or assess people, take advice before — not after.	Iarscríbhinn III: ó 2 Nollaig 2027 Annex III: from 2 December 2027
Trédhearcacht Transparency	Ceadaithe, ach caithfear a insint do dhaoine i gcásanna áirithe: comhrá le córas AI, domhainbhrionnú, agus téacs AI a fhoilsítear chun an pobal a chur ar an eolas faoi ábhair a bhaineann le leas an phobail. Permitted, but people must be told in certain cases: talking to an AI system, deep fakes, and AI text published to inform the public on matters of public interest.	Ní bhaineann an oibleagáid maidir le téacs le téacs a ndearnadh athbhreithniú daonna air agus a bhfuil freagracht eagarthóireachta ag duine as. The text duty does not apply where the text has had human review and someone holds editorial responsibility.	Ó 2 Lúnasa 2026 From 2 August 2026
Riosca íosta Minimal risk	Formhór mór na n-úsáidí: dréachtú, achoimrí, smaointe, scagairí turscair. The large majority of uses: drafting, summaries, ideas, spam filters.	Níl oibleagáidí sonracha faoin Acht — ach baineann an GDPR, rúndacht agus rialacha d'eagraíochta fós. No specific obligations under the Act — but the GDPR, confidentiality and your organisation's rules still apply.	— —

Róil

Who carries which obligations

Ról Role	**Cé hé** Who	**Oibleagáidí** Obligations
Soláthraí Provider	Forbraíonn sé córas AI agus cuireann ar an margadh é (OpenAI, Anthropic, Microsoft, Google…). Develops an AI system and puts it on the market (OpenAI, Anthropic, Microsoft, Google…).	Formhór na n-oibleagáidí teicniúla. Most of the technical obligations.
Úsáideoir gairmiúil Deployer	Eagraíocht a úsáideann córas AI faoina húdarás féin, go gairmiúil — comhlacht poiblí, comharchumann, gnólacht. An organisation that uses an AI system under its own authority, professionally — a public body, a co-op, a business.	Litearthacht AI; trédhearcacht i gcásanna áirithe; oibleagáidí breise má tá an córas ardriosca. AI literacy; transparency in certain cases; further obligations if the system is high-risk.
Úsáideoir pearsanta Personal user	Duine a úsáideann AI dá chuid gnóthaí príobháideacha féin, ní ar son eagraíochta. Someone using AI for their own private, non-professional purposes.	Ní bhaineann oibleagáidí an úsáideora ghairmiúil leis. Ag an obair, is ar son d'eagraíochta a oibríonn tú. Deployer obligations do not apply. At work, you act for your organisation.

Má úsáideann tú uirlis ghinearálta chun críche ardriosca — daoine a rangú le haghaidh poist, mar shampla — d'fhéadfá oibleagáidí breise a ghlacadh ort féin. Faigh comhairle.

If you use a general-purpose tool for a high-risk purpose — ranking people for a job, for example — you may take on additional obligations. Take advice.

Airteagal 4 — Litearthacht AI [L] · Article 4 — AI literacy

Caithfidh soláthraithe agus úsáideoirí gairmiúla bearta a dhéanamh chun tacú le litearthacht AI a gcuid foirne agus daoine eile a úsáideann AI ar a son.

Providers and deployers must take measures to support the AI literacy of their staff and others who use AI on their behalf.

Baineann sé leis an eagraíocht, ní leis an duine aonair.

It applies to the organisation, not the individual.

Níl teastas ag teastáil, ná leibhéal sonrach.

No certificate is required, and no specific level.

Leasaíodh é i mí Iúil 2026: bearta chun tacú, gan leibhéal a ráthú.

Amended in July 2026: measures to support, without guaranteeing a level.

Is féidir leis an gcúrsa seo a bheith mar chuid de na bearta sin — ní leor é leis féin.

This course can form part of those measures — on its own it is not enough.

Maoirseacht dhaonna agus cuntasacht · Human oversight and accountability

Ní féidir freagracht a aistriú chuig córas AI. Fanann sí leis an duine agus leis an eagraíocht.

Responsibility cannot be handed to an AI system. It stays with the person and the organisation.

I gcás córas ardriosca, caithfidh daoine inniúla, oilte a bhfuil an t-údarás acu maoirseacht a dhéanamh air.

For high-risk systems, competent, trained people with the authority to do so must oversee it.

I ngach cás eile, is dea-chleachtas é: duine ainmnithe a sheiceálann agus a cheadaíonn.

In every other case it is good practice: a named person checks and approves.

From 2 December 2026, also prohibited: AI systems that generate sexually explicit material of identifiable people without their consent, or child sexual abuse material.

Trí shampla

Three examples: benefit → risk → law → check → who decides

Freagraí ar cheisteanna coitianta ar shuíomh gréasáin le chatbot AI Answering common questions on a website with an AI chatbot	
Tairbhe Benefit	Freagraí tapa, lasmuigh d'uaireanta oifige. Quick answers, outside office hours.
Riosca Risk	Freagraí míchearta; daoine nach dtuigeann gur meaisín atá ann. Wrong answers; people who do not realise it is a machine.
Dlí Law	Trédhearcacht: caithfear a insint do dhaoine go bhfuil siad ag caint le AI, mura léir é. Cuireann an tAcht an dualgas dearaidh ar an soláthraí — seiceáil go ndéanann an táirge é. Transparency: people must be told they are talking to AI unless it is obvious. The Act puts the design duty on the provider — check the product does it.
Seiceáil Check	Cé na foinsí a úsáideann sé? Cad a tharlaíonn do na sonraí a chuireann daoine isteach? Cé a dhéanann monatóireacht air? Which sources does it use? What happens to the data people type in? Who monitors it?
Cé a chinneann Who decides	An bhainistíocht, le TF agus an t-oifigeach cosanta sonraí. Management, with IT and the data protection officer.

Íomhá réadúil de dhuine aitheanta a ghiniúint d'fheachtas Generating a realistic image of an identifiable person for a campaign	
Tairbhe Benefit	Íomhá thapa, shaor. A fast, cheap image.
Riosca Risk	Daoine a mhealladh; cearta an duine sin. Misleading people; that person's rights.
Dlí Law	Is domhainbhrionnú é: caithfear a nochtadh gur ábhar saorga é. Baineann cosaint sonraí agus cearta íomhá freisin. This is a deep fake: it must be disclosed as artificially generated. Data protection and image rights also apply.
Seiceáil Check	An bhfuil cead ag an duine? An gá an íomhá a bheith réadúil? Does the person consent? Does the image need to be realistic?
Cé a chinneann Who decides	An duine atá freagrach as an bhfeachtas, roimh fhoilsiú. The person responsible for the campaign, before publication.

AI a úsáid chun iarratais ar phost a scagadh agus a rangú Using AI to screen and rank job applications	
Tairbhe Benefit	Am a shábháil ar a lán iarratas. Time saved on many applications.
Riosca Risk	Claonadh, idirdhealú, cinntí éagóracha faoi dhaoine. Bias, discrimination, unfair decisions about people.
Dlí Law	Catagóir ardriosca (Iarscríbhinn III, earcú). Baineann an GDPR anois — cinntí uathoibrithe, measúnú tionchair, trédhearcacht d'iarrthóirí. A high-risk category (Annex III, recruitment). The GDPR applies now — automated decisions, impact assessment, transparency for candidates.

Seiceáil Check	Ná lean ar aghaidh gan measúnú eagraíochta agus comhairle. Do not proceed without an organisational assessment and advice.
Cé a chinneann Who decides	An bhainistíocht shinsearach, le hacmhainní daonna, cosaint sonraí agus comhairle dlí. Senior management, with HR, data protection and legal advice.

Cathain is gá athbhreithniú eagraíochta? · When is an organisational review needed?

Cinntí faoi dhaoine: fostaíocht, incháilitheacht, sochair, seirbhísí nó cearta.

Decisions about people: employment, eligibility, benefits, services or rights.

Sonraí pearsanta, go háirithe catagóirí speisialta sonraí pearsanta (sláinte, reiligiún, eitneacht…).

Personal data, especially special categories of personal data (health, religion, ethnicity…).

Faisnéis rúnda, airgeadais nó atá íogair ó thaobh na tráchtála de.

Confidential, financial or commercially sensitive information.

Uirlis nua nach bhfuil ceadaithe, nó uirlis atá á ceannach.

A new tool that is not approved, or a tool being bought.

Rud a fhoilseofar go poiblí faoi ainm na heagraíochta.

Anything to be published under the organisation's name.

AI a chuirfí isteach i bpróiseas oifigiúil nó a d'oibreodh gan duine.

AI built into an official process, or running without a person.

Cé leis a labhraíonn tú? Do bhainisteoir, an t-oifigeach cosanta sonraí, TF, soláthar — agus comhairle dlí nuair atá an riosca ard.

Who do you talk to? Your manager, the data protection officer, IT, procurement — and legal advice when the stakes are high.

Sula dtugann eagraíocht bheag AI isteach · Before a small organisation introduces AI

Liostaigh na huirlisí AI atá in úsáid cheana — go hoifigiúil agus go neamhoifigiúil.

List the AI tools already in use — officially and unofficially.

Socraigh cad chuige a n-úsáidfear iad, agus cad chuige nach n-úsáidfear.

Decide what they will be used for, and what not.

Roghnaigh uirlisí agus cuntais a bhfuil téarmaí soiléire sonraí acu.

Choose tools and accounts with clear data terms.

Scríobh riail ghearr: cad nach gcuirtear isteach riamh, cé a sheiceálann, cé a cheadaíonn.

Write a short rule: what never goes in, who checks, who approves.

Tabhair oiliúint don fhoireann agus coimeád taifead air.

Train the team and keep a record of it.

Seiceáil arís gach sé mhí: athraíonn uirlisí agus rialacha.

Review every six months: tools and rules change.

An tAcht AI sa chleachtas: rangaigh an cás

AI Act in practice: classify the scenario

Tá na cúig chás ar na cártaí cáis (agus ar an suíomh gréasáin). Líon an tábla seo do do chás.

The five scenarios are on the scenario cards (and on the website). Fill this table for your scenario.

Ná brúigh gach cás isteach i ndath glas, ómra nó dearg. Má tá eolas in easnamh, abair é sin — agus cad a bheadh uait. · Do not force every scenario into green, amber or red. If information is missing, say so — and what you would need.

3 nóiméad — Míniú: na sé cheist agus na cúig chinneadh.

Briefing: the six questions and the five decisions.

20 nóiméad — I ngrúpaí de thriúr nó ceathrar: cás amháin go mion, an dara cás má tá am ann.

In groups of three or four: one scenario in depth, a second if there is time.

15 nóiméad — Aiseolas: trí nóiméad in aghaidh an cháis. Cén cinneadh, agus cén fáth?

Report back: three minutes per scenario. Which decision, and why?

2 nóiméad — Achoimre: braitheann an riosca ar an úsáid, ní ar an uirlis.

Wrap-up: the risk depends on the use, not the tool.

An riail · The rule

Ná cuir eolas pearsanta, rúnda ná eolas atá íogair ó thaobh na tráchtála de isteach in uirlis AI mura bhfuil an uirlis agus an úsáid atá beartaithe ceadaithe mar is cuí.

Do not enter personal, confidential or commercially sensitive information into an AI tool unless the tool and the proposed use have been appropriately authorised.

- Ní thagann an tAcht AI in áit an GDPR ná dlíthe eile. Baineann siad go léir ag an am céanna. · The AI Act does not replace the GDPR or other law. They all apply at the same time.
- Níl na socruithe príobháideachta céanna ag gach seirbhís AI — ná ag gach cuntas den tseirbhís chéanna. · Not every AI service has the same privacy controls — nor does every account of the same service.

Cuntasacht · Accountability

Athbhreithniú daonna: léann duine an t-aschur sula n-úsáidtear é.

Human review: a person reads the output before it is used.

Ceadú: ceadaíonn duine ainmnithe an t-aschur deiridh.

Approval: a named person approves the final output.

Taifead, nuair is gá: cén uirlis, cén tasc, cé a cheadaigh — má éilíonn d'eagraíocht é.

A record, where relevant: which tool, which task, who approved — if your organisation requires it.

Cóipcheart: ná huaslódáil saothar duine eile gan cead, agus ná maígh gur leatsa saothar nach leat.

Copyright: do not upload someone else's work without permission, and do not claim work that is not yours.

Comhairle an Choimisiúin um Chosaint Sonraí: tuig cad iad na sonraí pearsanta a úsáideann uirlis sula dtosaíonn tú, agus cé acu a choimeádann nó a athúsáideann an soláthraí iad.

Data Protection Commission advice: understand what personal data a tool uses before you start, and whether the provider keeps or reuses it.

Cáilíocht na Gaeilge · Irish-language quality

An bhfuil sé ceart?

Is it correct?

An bhfuil sé nádúrtha?

Is it natural?

An bhfuil sé oiriúnach don phobal seo?

Is it appropriate for this community?

Ní ráthaíonn téacs Gaeilge ó AI go bhfuil sé ceart, nádúrtha, oiriúnach go cultúrtha ná feiliúnach do phobal áirithe.

AI-generated Irish is not guaranteed to be correct, natural, culturally appropriate or suitable for a particular community.

Is caighdeán scríofa é An Caighdeán Oifigiúil. Is rud eile é an Ghaeilge áitiúil — i Múscraí, mar shampla. Ní féidir brath ar AI chun canúint áitiúil a scríobh go hiontaofa; is iad cainteoirí an phobail an t-údarás.

An Caighdeán Oifigiúil is a written standard. Local Irish — in Múscraí, for example — is something else. AI cannot be relied on to write a local dialect reliably; the community's speakers are the authority.

One genuine task from your work. One page. It is yours — use it again.

Ceist Question	**Mo fhreagra** My answer
1. Tasc — Cad ba mhaith liom go gcabhródh AI liom a dhéanamh? Task — What do I want AI to help me do?	
2. Tairbhe — Cén fáth a bhfuil AI úsáideach don tasc seo? Benefit — Why is AI useful for this task?	
3. Uirlis — Cén uirlis cheadaithe nó cén sruth oibre atá oiriúnach? Tool — Which approved tool or workflow is appropriate?	
4. Sonraí — Cén t-eolas is féidir a roinnt go sábháilte? Data — What information can safely be shared?	
5. Prompt — Cé na treoracha soiléire agus na srianta a thabharfaidh mé? Prompt — What clear instructions and constraints will I give?	
6. Fíorú — Conas a sheiceálfaidh mé na fíricí, na foinsí, na figiúirí agus an teanga? Verification — How will I check the facts, sources, figures and language?	
7. STOP — Cad a chuirfeadh orm stopadh nó comhairle a lorg? STOP — What should make me stop or seek advice?	
8. IRISH — Má tá Gaeilge i gceist: conas a sheiceálfaidh mé go bhfuil sí ceart, nádúrtha agus oiriúnach? IRISH — If Irish is involved: how will I check it is correct, natural and suitable?	
9. Ceadú daonna — Cé atá freagrach as an aschur deiridh? Human approval — Who is responsible for the final output?	
10. An chéad chéim eile — Cad a thriailfidh mé sa chéad 30 lá eile? Next step — What will I try in the next 30 days?

Mo phlean gnímh 30 lá

My 30-day action plan

Gealltanas Commitment	**Mo fhreagra** My answer
Trí thasc ina bhféadfadh AI a bheith úsáideach Three tasks where AI may be useful	
Tasc amháin nár cheart AI a úsáid dó gan tuilleadh measúnaithe One task where AI should not be used without further assessment	
Réamhchúram príobháideachta nó rúndachta amháin One privacy or confidentiality precaution	
Nós fíoraithe amháin One verification habit	
Gníomh amháin a chuirfidh mé i bhfeidhm laistigh de 30 lá One action to implement within 30 days	
Ceist nó ábhar amháin le plé le m'eagraíocht One question or issue to discuss with my organisation	

Dáta athbhreithnithe (30 lá ó inniu): _____ · Review date (30 days from today)

Le tabhairt libh · What to take with you

Is féidir le AI a bheith úsáideach gan muinín dhall a bheith againn as.

AI can be useful without being trusted blindly.

Braitheann an uirlis cheart ar an tasc agus ar an eolas.

The right tool depends on the task and the information.

Tá tábhacht le rialacháin agus le rialacha eagraíochta.

Regulations and organisational rules matter.

Ní féidir freagracht dhaonna a fhágáil faoi chóras AI.

Human responsibility cannot simply be delegated to an AI system.

Tá aird ar leith ag teastáil ón nGaeilge agus ó chomhthéacs an phobail.

Irish-language and community context need particular attention.

Próiseas praiticiúil is ea glacadh sábháilte le AI — ní ócáid oiliúna aon uaire.

Safe AI adoption is a practical process, not a one-off training event.

CÁS 1 · SCENARIO 1 · OIFIGEACH POIBLÍ · PUBLIC OFFICER

Comhairliúchán poiblí • Public consultation

Úsáideann oifigeach poiblí AI chun achoimre a dhéanamh ar 140 aighneacht chuig comhairliúchán poiblí agus chun nóta eolais a ullmhú do bhainisteoir. Tá roinnt aighneachtaí i nGaeilge, cuid i mBéarla, agus tá ainmneacha agus seoltaí i gcuid acu.

A public officer uses AI to summarise 140 submissions to a public consultation and prepare a briefing note for a manager. Some submissions are in Irish, some in English, and some include names and addresses.

Seicliosta AI freagrach

Responsible AI checklist

D'oifigigh phoiblí, d'eagraíochtaí pobail agus do ghnólachtaí beaga.

For public officers, community organisations and small businesses.

Ní liosta dlíthiúil iomlán é seo. Taispeánann an litir in aice le gach pointe cén cineál ráitis atá ann.

This is not a complete legal list. The letter beside each point shows what kind of statement it is.

	Cineál ráitis Kind of statement	**Brí** Meaning
L	Oibleagáid dhlíthiúil Legal obligation	Éilíonn an dlí é, nuair a bhaineann sé leat. The law requires it, where it applies to you.
C	I gcásanna áirithe amháin Only in certain circumstances	Ní bhaineann sé ach le húsáidí, róil nó cineálacha eagraíochta ar leith. It applies only to particular uses, roles or kinds of organisation.
G	Dea-chleachtas eagraíochta Recommended organisational practice	Ní éilíonn an dlí é i gcónaí, ach is cleachtas ciallmhar é. Not always required by law, but sensible practice.
P	Réamhchúram pearsanta Personal precaution	Nós maith don duine aonair a úsáideann AI. A good habit for the individual using AI.

An riail · The rule

Ná cuir eolas pearsanta, rúnda ná eolas atá íogair ó thaobh na tráchtála de isteach in uirlis AI mura bhfuil an uirlis agus an úsáid atá beartaithe ceadaithe mar is cuí.

Do not enter personal, confidential or commercially sensitive information into an AI tool unless the tool and the proposed use have been appropriately authorised.

✓		**Pointe** Point
		1 · Sula dtosaíonn tú 1 · Before you start
☐	P	Tá a fhios agam cad ba mhaith liom go ndéanfadh AI, agus cén fáth. I know what I want AI to do, and why.
☐	G	Tá an uirlis agus an cuntas ceadaithe ag m'eagraíocht don úsáid seo. The tool and account are approved by my organisation for this use.
☐	G	Tá riail ghearr scríofa ag an eagraíocht: cad nach gcuirtear isteach, cé a sheiceálann, cé a cheadaíonn. The organisation has a short written rule: what never goes in, who checks, who approves.
☐	L	Tá bearta déanta ag an eagraíocht chun tacú le litearthacht AI na foirne (Airteagal 4). The organisation has taken measures to support staff AI literacy (Article 4).
		2 · An t-eolas a théann isteach 2 · The information going in
☐	P	STOP: Foinse, Muinín, Úinéireacht, Príobháideacht. STOP: Source, Trust, Ownership, Privacy.
☐	L	Má tá sonraí pearsanta ann, baineann an GDPR leo: bunús dlíthiúil, íoslaghdú, slándáil. If there is personal data, the GDPR applies: lawful basis, minimisation, security.
☐	C	Catagóirí speisialta sonraí pearsanta, nó úsáid nua a bhféadfadh ardriosca a bheith ag baint léi: d'fhéadfadh measúnú tionchair ar chosaint sonraí a bheith ag teastáil. Special categories of personal data, or a new use likely to be high-risk: a data protection impact assessment may be required.
☐	P	Bhain mé ainmneacha agus sonraí nach raibh ag teastáil. I removed names and details that were not needed.
☐	G	Sheiceáil mé na socruithe coimeádta agus traenála. I checked the retention and training settings.
☐	P	Níor uaslódáil mé saothar duine eile gan cead. I did not upload someone else's work without permission.

		3 · An t-aschur 3 · The output
☐	P	Sheiceáil mé fíricí, figiúirí, dátaí, ainmneacha agus luachana. I checked facts, figures, dates, names and quotations.
☐	P	Lean mé éilimh thábhachtacha siar go dtí an fhoinse. I traced important claims back to the source.
☐	G	Ní úsáidim AI mar fhoinse dheiridh ar chomhairle dlí, cánach, fostaíochta ná airgeadais. I do not use AI as the final source of legal, tax, employment or financial advice.
		4 · Gaeilge 4 · Irish
☐	P	IRISH: Intinn, Réim, Gaeilge, Ciall, Duine. IRISH: Intent, Register, Irish, Sense, Human.
☐	P	An bhfuil sé ceart? An bhfuil sé nádúrtha? An bhfuil sé oiriúnach don phobal seo? Is it correct? Is it natural? Is it appropriate for this community?
☐	G	Ábhar ar riosca ard (comharthaíocht, conarthaí, fógraí oifigiúla): deimhníonn cainteoir inniúil nó aistritheoir é. High-stakes content (signage, contracts, official notices): a competent speaker or translator validates it.
		5 · Foilsiú agus trédhearcacht 5 · Publication and transparency
☐	C	Chatbot: caithfear a insint do dhaoine go bhfuil siad ag caint le AI, mura léir é. Chatbot: people must be told they are talking to AI, unless it is obvious.
☐	C	Domhainbhrionnú (íomhá, fuaim nó físeán réadúil): caithfear a nochtadh gur ábhar saorga é. Deep fake (realistic image, audio or video): it must be disclosed as artificially generated.
☐	C	Téacs AI a fhoilsítear chun an pobal a chur ar an eolas faoi ábhar leasa phoiblí: nocht é — mura ndearnadh athbhreithniú daonna air agus go bhfuil freagracht eagarthóireachta ag duine. AI text published to inform the public on matters of public interest: disclose it — unless it had human review and someone holds editorial responsibility.
☐	G	Leanaim polasaí m'eagraíochta faoi úsáid AI a lua. I follow my organisation's policy on mentioning AI use.
		6 · Stop agus faigh comhairle 6 · Stop and seek advice
☐	C	Cinntí faoi dhaoine: earcú, bainistíocht foirne, incháilitheacht, sochair, oideachas — catagóirí ardriosca féideartha. Decisions about people: recruitment, staff management, eligibility, benefits, education — possible high-risk categories.
☐	L	Ná húsáid AI chun mothúcháin daoine a aithint san ionad oibre nó san oideachas (toirmiscthe, seachas ar chúiseanna leighis nó sábháilteachta). Do not use AI to recognise people's emotions in the workplace or in education (prohibited, except for medical or safety reasons).
☐	G	Uirlis nua á ceannach, nó AI i bpróiseas oifigiúil: athbhreithniú eagraíochta roimh ré. A new tool being bought, or AI in an official process: an organisational review first.
		7 · Cuntasacht 7 · Accountability
☐	G	Ceadaíonn duine ainmnithe an t-aschur deiridh. A named person approves the final output.
☐	G	Coimeádaim taifead gearr nuair a éilíonn m'eagraíocht é: uirlis, tasc, cé a cheadaigh. I keep a short record where my organisation requires it: tool, task, who approved.
☐	P	Is mise atá freagrach as an méid a úsáidim agus a fhoilsím. I am responsible for what I use and publish.
